Add a Splash Of Colour

Colour Options

Choosing your new front or back door is the perfect opportunity to express your style and add curb appeal to your home. So are you fed up of traditional white and want to add a splash of colour to your door? Well not to worry. We have a vast range of stunning high performance colours of UPVC to transform the entrance of your home. Not to mention dual colour options, and a range of custom made colours, that are available on request. If you're thinking of transforming your home with a splash of colour, whilst also adding to its perceived value, then here is what you need to know:

- **Coloured UPVC is becoming an increasingly popular trend in the housing market**
- **Our coloured UPVC is durable and resilient lasting up to 10 years or more**
- **Our coloured UPVC doors are guaranteed to withstand all weather conditions**

Standard Colours

Our standard colour range explores all the colours you would expect. White doors work with every type of property both traditional or modern. Our traditional standard colours of Golden Oak and Rosewood, allow you to transform your traditional home perfectly. Our customer favourites of Anthracite Grey and Black speak for themselves and looks stunning on any home, no matter what style of door you choose.

Dual Colour Available:

If you're looking for something a little more unique, all our doors can be made dual colour as well, giving you that additional personal touch to your door. You can be sure that whatever your perfect door style is we can create a colour palette to match it both inside and out. Designed for you, by you.

Due to the nature of our products and limitations in regards to the printing process, no liability can be accepted for the accuracy of the colours, door designs or glass designs depicted, which are intended for guidance purposes only.

Please note Chartwell Green does not have an exact RAL number this RAL provided is the closest colour to it

Choose Your Hardware

All our doors are fully customisable right down to the hardware, so why not add that extra finishing touch to your new UPVC door by customising your door with your specific choice of hardware or door accessories. Check out all of our distinctive and stunning hardware options that are guaranteed to compliment your new door, no matter what door, colour or design you were to choose!

Choose Your Glass

When it comes to your front door we know that privacy is essential. Not only this, the glass and privacy that you are hoping to get, must also be safe and secure. That is why all the glass within our doors come with reinforced toughened safety glass as standard. So, along side the protection that our doors offer, you can be sure that your glass is secure too! When it comes to choosing a privacy glass, within our doors, you have two options to provide the best level of privacy possible:

- **Obscure Stippolyte Glass**
- **Obscure Satin Glass**

Both options of backing privacy glass will provide you with that privacy you require, whilst still allowing light into your hall. At the same time, both options don't detract from the overall look and finish of the door; in some instances it actually enhances it. Both options are still guaranteed to transform the entrance to your home.

There is also the option to have any of our doors available in **clear glass** too.

Check out our privacy glass examples below:

Stippolyte

Low E, Energy Efficient Glazing As Standard

Wherever you see this icon you can rest assured your getting the highest energy efficient glazing possible. We supply all our door range with **Low E, Argon filled** glass units without any additional cost! Our doors come energy efficient as standard but by installing our **Low E** option on all our doors, we can help increase your energy efficiency, which is not only better for the environment but better for your pocket by helping you save on those high energy bills.
